## Who We Are

---

OMASPEC GLOBAL NIG LTD is an indigenous limited liability company fully registered in the corporate Affairs Commission(CAC) to render services which includes but not limited to procurement, field Support Services, Integrated Facility Management, Construction / Renovation Services, Manpower Supply Services, Procurement Supply and leasing Services.

We have OEM (Original Equipment Manufacturers) partnership with specific companies who manufacture equipments and tools used for effective running of the industries and organizations we do business with. Our passion for quality service and customer satisfaction driven target has created a heritage of inspired innovation, nurtured skilled craftsmen, who take pride in their work by meeting and exceeding customers requirements

## Our Vision

Our Vision is to provide exceptional services to the oil and gas industry with aim to yield positive results and sense of urgency. We seek new opportunities and out-of-the-ordinary solutions. We endeavor to create a clean, safe and healthy workplace and environment in the oil and gas sector.

## Our Mission

Our team is driven to be 100% committed to flawlessly executing our services with relentless focus on safety, efficiency, rapid response, technical expertise and growth mindset in the oil and gas industry. We have an unwavering commitment to being a good corporate partner focused on building productive, collaborative, trusting, and beneficial relationships with other companies, our customers, and our communities.

# Our QHSE Policy

We recognize our responsibility to operate with proper regard for the environment and for the health and safety of people who may be affected, directly or indirectly, by our operations. Our Environmental Policy is designed to ensure that every employee shares responsibility for the environment. As part of our commitment to continuous improvement, we systematically monitor our performance in these areas. Our objective is to maintain a high degree of excellence in respect of all HSE issues, including emergency preparedness

OMASPEC GLOBAL NIG. LTD believes that effective health, safety, security and environmental (HSE) performance is a key objective, equal to all other key business objectives. An integrated HSE Management System (has been established and) will be maintained.

Use of HSE tools such as Job safety analysis( JSA), general work permit (GWP), Job hazard analysis (JHA), Incident Hazard Analysis (IHA), risk mitigation plan, tool box meetings, pep talk, safety stand up and stand down meetings are put in place in preventing incidence and accident from occurring during execution of projects and also the daily running of the Omaspec Global Nig. Ltd personnels both in the field and in the office.

# Our Services

- **Procurement Supply and Leasing Services**

- **Field Support Services**

- Instrumentation & Electrical
- Mechanical support
- Offshore and Onshore facility management
- Support Turn around Maintenance
- Capacity and Assets management
- Man Power Supply Services
- Turbine maintenance support
- Facility support services

- **Oil and Gas Engineering Services**

- **Consultancy Services**

- **Integrated Facility Management**

- Grass & shrubs cutting
- Plumbing maintenance
- Horticulture
- HVAC
- Painting
- Cleaning Services (Industrial and Residential) DSTV Maintenance
- Construction Services (Renovation/Refurbishment)
- Carpentry
- Waste Removal (Solid/Liquid)
- Supply of Portable Water

## Procurement Supply and Leasing Services

Another important aspect of our service line is the procurement and supply of oil and gas equipments, machinery, instruments, tools, spares, materials, chemicals, other consumable used by our partners in running their facility. We support the manufacturing, power, chemical and construction sectors of the Nigerian economy in providing tools and equipment needed under procurement support.

Our organization also provide leasing of equipments to oils and gas facilities on a long and short time basics.

We provide services to both local and multinational organizations in procurement and leasing services required

## Field Support Services

OMASPEC GLOBAL NIGERIA LIMITED provide Field Support Services to onshore, offshore, swamp and deep sea oil and gas installation on a regular and call out basics.

## Instrumentation & Electrical Services

OMASPEC GLOBAL NIGERIA LIMITED provide services that involves calibration of switches, meters and support services in commissioning and turn around maintenance, preventive and corrective maintenance on motor control centers, Human machine interface and field equipments.

## Mechanical Support

We provide support to mechanical appliances or devices used in the oil and gas facility, which includes but not limited to rotating equipments (Generators, both diesel and gas fired, pumps, cooler fans, air compressors and gas driven turbines. Carry out preventive and corrective maintenance on rotating equipments (2200Hrs/4400hrs/8800Hrs) Support in house mechanical department in carrying out engine change out (Solar turbine trained mechanical technicians) pump revamp and commissioning /installation support Keep the stock of spare parts and consumables at the appropriate level by verifying the stock levels and having them available during preventive and corrective maintenance

## Oil and Gas Engineering Services

We work with our partners to streamline oil and gas servicing that don't just deliver on perfection but also delivers on time. Our robust technology, knowledge-based approach and dedication to quality and safety allow us to provide innovative solutions to every part of the oil and gas industry by providing the necessary man power and technology support required.

## Consultancy Services

Omaspec Global Nig provide consultancy services in all the major areas of specialty including man power provision for dedicated craft. Have stationed personnel providing consultancy services for multinational companies on a long / short term basics.

## On-shore Facility Management

Omaspec Global Nig Ltd carry out on-shore facility management for oil and gas gas companies. This is a professional management discipline focused on the efficient and effective delivery of logistics and other support services, as defined by the International Organization for Standardization (ISO).

## Assets and Facility Management Services

Omaspec Global Nig. Ltd. Handle the asset management system of its clients. We manage all assets across the business. These assets can be tangible or intangible. They can include personnel, buildings, software and hardware, inventory, monetary assets, and anything vital to the business's day-to-day running.

## Turbine Maintenance

Omaspec Global Nig. Ltd. Carry out Some of the specific turbine repairs and support maintenance services of gas fired turbines, these services are needed for preventative and corrective maintenance, engine change out and upgrade services needed. te have access to trained mechanical technicians that offer the services when needed.

## Manpower Supply Services

OMASPEC GLOBAL NIG. LTD provides Recruitment and Manpower Supply Services for our clients in the Oil and Gas Industry. OMASPEC GLOBAL NIG. LTD provides Consultant/Manpower Supply services to our clients in the Oil and Gas industry. We supply Consultants to the Projects and Operations of our Clients. We also perform Outsourcing Services like Project Recruitment Exercise and Workforce Management in Oil and Gas Industry in Nigeria.

Project Recruitment Campaigns OMASPEC organizes and executes Recruitment Exercise for our Clients for both Foreign and National Recruit. The Recruitment Exercise includes: Candidate Attraction and Advertising, Short Listing, Interview Coordination and logistics, help with making the job offer and Contract Signing.

The Recruitment Exercise is organized as a project with clearly defined timelines, KPI's and deliverable Manpower and consultants supply.

OMASPEC GLOBAL NIG. LTD supplies low, mid to high level technical, operational and managerial professionals to companies in the International Oil and Gas Industry located in Nigeria . The professionals are seconded to the Client's operations, either in the office or at the work location.

OMASPEC takes care of all activities related to the recruitment and employment of the seconded personnel. OMASPEC takes care of: Recruitment & Selection, Mobilization, Visas & Work permits Payroll, Insurances, Taxes and all other services related to manpower provision both for skilled, semiskilled and expatriate personnels needed. We have presently recruiters license required to hire both national and expatriate needed for short and long term requirement.

## Turnaround Maintenance (Support Services)

Omaspec global Nig. Ltd. provides dedicated support for Turnaround maintenance. We provide man power and support for scheduled turn around maintenance where a facility/plant is shut down for a predetermined time to carry out operational inspections, maintenance, repairs, replacements of parts. support personnel are also deployed for equipment upgrade .

## Off-shore Facility Management

---

Omaspec Global Nig. Ltd is able to provide a complete and comprehensive range of solutions for clients wishing to improve their facilities' operational efficiency or increase the lifespan of their current fleet.

From surveys, FEED studies, service, maintenance, repairs, replacements and upgrades, to refurbishment, installation, commissioning, decommissioning, shutdowns and turnarounds, we support our clients with all their requirements on site, including ongoing maintenance contracts.

# Integrated Facility Management

OMASPEC GLOBAL NIG. LTD provides Integrated facilities management (IFM) services to oil and gas companies in Nigeria with a wide range of specialized services offered that cut across Horticultural services, Industrial and residential cleaning services, waste removal services, DSTV services, industrial and residential Plumbing services, Water plant and Portable water provision services and a lot more. Modern equipments and tools are deployed in carrying out IFM services within the facilities we operate, OGNL personnel's deployed to work in facilities are well trained and skilled, they offer the very best in ensuring incident free operations on a daily basis

We currently execute long term integrated facility management services contract for major international oil and gas companies in Nigeria, our four main functions and ethics in IFM are

- Support people
- Establishing processes
- Facilities upkeep and improvement
- Technology interpretation and finally
- Putting it together for facilities management that ensures the comfort of people and the environment we live in

## Grass And Shrubs Cutting

Omaspec Global NIG. LTD provides grass cutting services for our oil and gas client's on-shore and off-shore facilities such as Exxon Mobil BRT and Life camp.

Our grounds maintenance services contracted to a oil and gas companies ensures that the grass on their sites should not exceed 60mm in height before being cut. As the frequency should ensure that the grass is never left too long so as to cause it to look unsightly.

## Horticulture

Omaspec Global provides Horticultural services to our oil and gas clients on-shore and off-shore facilities. We are presently responsible for Exxon Mobil BRT and Life Camp Horticultural needs,

Production and consumption of high quality fruits and vegetables allows us to maintain a healthy, balanced daily diet. Flowers and ornamental plants enrich our homes and communities, and contribute to our sense of well-being. Horticulture impacts our lives on a daily basis by providing nutritious fruits and vegetables, offering visual enjoyment, and promoting recreational activities.

Old Unit

New Unit

## HVAC Maintenance Services

OMASPEC GLOBAL NIG. LTD offers HVAC services for oil and gas companies. Our core objective is to ensure the running efficiency of client's HVAC systems which includes periodic preventive (2200, 4400, 8800 hrs) and corrective maintenance services carried out on all HVAC systems both in on-shore and off-shore client's facilities.

OMASPEC GLOBAL NIG. LTD also carries out HVAC services on chillers, stand alone units, HVAC ductings, HVAC central control units, compressors and other related HVAC components.

Before

After

## Painting Services

OMASPEC GLOBAL NIG. LTD have carried out painting services of of major oil and gas facilities which includes and not limited to residential buildings, cafeterias, maintenance buildings, facility buildings and also on-shore and off-shore platforms.

Pictures above depicts before and after look of block 7D life camp Exxon Mobil facilities.

We also covers painting of commercial buildings of oil and gas companies.

Before

After

## Construction Services (Renovation/Refurbishment)

OMASPEC GLOBAL NIG. LTD has been actively involved in high profile renovations, refurbishments contracts with oil and gas firms. Our well equipped, trained engineers and technicians carry out these projects effectively to the satisfaction of our clients.

Pictures above shows before and after look following reconstruction project on life camp facilities of Exxon Mobil Nig. LTD.

Reconstruction activities includes excavating, casting, grating and installations as shown.

This mentioned project was delivered in time as agreed in Purchase Order.

## Carpentry

OMASPEC GLOBAL NIG. LTD offers carpentry services that cut across re-construction projects, Call-Out maintenance services when needed which includes maintenance of furnitures, office buildings, doors & locks. These are part of our regular carpentry maintenance services.

## Waste Removal (Solid/Liquid)

OMASPEC GLOBAL NIG. LTD offers waste management services in the oil and gas sector which we operate in. We take care of solid waste from oil and gas facilities, gas plants, residential facilities, kitchen chambers and incinerators. We also handle the sucking of liquid wastes from sewage pits.

Further solid waste activities like such as de-sanding are also carried out regularly in oil and gas facilities when needed. Heavy duty equipments such as fork lifts, sewage trucks, burnable and non-burnable metal skids and industrial bags are regularly used by our personnels in carrying out solid waste removal services.

## Supply of Portable Water

OMASPEC GLOBAL NIG. LTD carries out supply of portable water as part of our Call-out Services.

We oversee provision of drinking water to our on-shore and off-shore clients in the oil and gas industry.

## Plumbing Maintenance

OMASPEC GLOBAL NIG LTD offers high quality plumbing services to oil and gas facility on a long term call out and permanent basis.

Our well trained personnels are stationed in Bonny BRT and Life Camp to carry out regular plumbing services which includes installation and repairs of plumbing systems.

We maintain and handle replacement plumbing tools and equipments used regularly in the oil and gas facilities, service. If need be, repairs, alteration, or modification of the pipes, fixtures, and other apparatus used for bringing the water supply into a building and removing liquid and water-carried wastes from a building are utilized. Our Plumbing services also includes the installation and connection of gas piping with modern technology system been deployed.

## DSTV Maintenance

OMASPEC GLOBAL NIG. LTD are in partnership with Multichoice DSTV company to carry out DSTV maintenance services to client's oil and gas on-shore and off-shore facilities

Omaspec Global Nig. Ltd. are first hand for Purchase, delivery, installation and Maintenance for all DSTV related issues. We have Long term maintenance contract to deliver DSTV maintenance in oil and gas residential and commercial buildings of our clients. We use our modern technology in handling, installing and maintaining DSTV for our clients and partners.

## Cleaning Services (Residential Services)

OMASPEC GLOBAL NIG. LTD offers cleaning services on oil and gas cooling equipments such as cooler fans, turbine cooler fans, turbine air inlet systems, expander and re-compressor cooler systems and also oil and gas support equipments, HVAC systems and heat exchangers. We also carry out cleaning services on industrial and residential facilities of our clients in the oil and gas sector.

Omaspec Global Nig. Ltd. carry out high-pressure cleaning services in oil and gas installations, we use a system that includes a high pressure pump, hoses, pipes, nozzles, controls and various accessories to create the necessary cleaning volume and velocity needed in cleaning oils and equipments like coolers, radiators and generator system. We use various types of high-pressure cleaning systems to suit every particular cleaning job that involves applying chemicals and mineral water for cleaning purposes.

High-pressure cleaning techniques usually involve the use of high pressure equipments between 5,000 to 10,000 psi (34 to 70 MPa) to remove grime, loose paint, mud, debris, mold, dust and other types of stubborn dirt on the surfaces of tanks, enclosed spaces, containers, engine area, pipes, cooler fans and many more items in the process and non process paint.

## HANNY REELS- THE ONLY REEL YOU ONLY NEED

Several distinct design and construction advantages contribute to the superior “buy it once” quality of Hannay Reels. Once you experience the hose and cable reels, you’ll see why there are more than two million of them hard at work around the world today.

These exclusive features produce longterm strength, reliability, and versatility to your hose reel or cable reel;

- Heavy-duty design and construction
- Dual bearing and dual frame support - standard on all models
- Heavy-gauge steel frame
- Sealed axle bearings for smoother operations and longer life
- One-piece axle hub assembly
- Compact design to conserve space
- Custom construction to meet your requirements
- All products made in the USA

# OEM Partnership

## HIDRACAR S.A- QUALITY IN THE DESIGN OG EVERY DETAIL

A leader in the field of pulsation dampers, oleo-pneumatic accumulators, sshock absorbers, oelohydraulic starters for Diesel engines and oleo-pneumatic suspensions for tankers and agricultural trailers.

Our experience and knowledge is fuliy available to our customers, whose trust in our p has made the HIDRACAR brand present throughout the world.

Design, manufacturing, marketing and after sales of

- Hydro Pneumatic Accumulators
- Pulsation Dampers
- Dynamometers.
- Shock Absorbers
- Oleo-hydraulic Starters
- And Suspension Cylinders.

### Maritime

- Drydock, workboat, shipyards
- Lubricating liquids • Pneumatic tools
- Firefighting • Food processing
- Gas welding • Heavy rope storage
- Offshore crude unloading, refueling
- Electric cable for tools and boat servicing
- Washdown, steam cleaning, power wash

### Fire/Rescue

- Booster hose
- HazMat situations
- Vehicular extrications • Hydraulic tools
- Electric cables for lights and tools
- Breathing and utility air applications
- Dual agent/foam
- Large diameter hose

### Industrial

- Hydraulic/pneumatic tools and machinery
- Washdown • Potable water
- Food processing • Gas welding
- In-plant firefighting • Vacuum/suction
- Pharmaceutical and cosmetics
- Fuel, lubrication, chemical transfer
- Electric cable for lights, tools, machinery

### Construction

- Service/lube hose for heavy off-road equipment
- In-house maintenance and servicing – air, water, lubricating fluids, fuel, and more
- Gas welding and cutting operations
- Hydraulic tools
- Electric cable for arc welding, remote lighting, generators, and more

### Grounds Maintenance

- Pesticides, herbicides
- Watering and fertilizing
- Electric cable for power tools – clipping, edging, trimming
- Pressure washing, steam cleaning
- Washdown
- Lawn care

### Communications

- Portable and stationary electric cable for studio and mobile units
- Video inspection
- Sound/light rigging (rope and cable)
- HazMat fire emergency locations

# OEM Partnership

## HIDRACAR S.A - INDUSTRY APPLICATION

### Pulsation dampers

To stabilize the flow and pressure in circuits with volumetric pump  
 Allows pump to work without shock, increasing it life and the life of the filter, flowmeters and other accessories  
 Gives more accuracy to pressure gauges and flowmeters  
 Prevents leakage from pipe connections created by pressure peaks

### In-Line Pulsation Damper

- Food, pharmaceutical processes
- CIP (clean in place) processes.
- no limitation on the nitrogen gas charging pressure
- beverages processes

### Oleo-Pneumatic Accumulators

- Energy storage, impact absorption,
- dampening of water hammer effect,
- transference of pressure between two different fluids,
- keeping the pressure in leaking circuits,
- to compensate the variations in the volume of a liquid due to its thermal dilatation, machine tools

### Oleo-Pneumatic Shock Absorber

- decelerate masses in reciprocating, linear, circular and other movements.
- They also work as shock absorbers of weights in free fall
- as suspension of vehicles and wagons,
- for the tightening of chains,
- conveyor belts, rollers.

### Suspension Cylinders

- truck and tractor towed load trailers,
- tanker trailers for the transport of liquids and slurries and fumigation tank trailers.

### Hydrostatic Dynamometers

- Direct control of crane suspended loads,
- machining of shafts
- effort measurement in electric lines,
- ground vehicle and boat traction,
- conveyor belts, traction tests
- electronic output with a piezoelectric transducer that provides a remote output

## ATEXXO MANUFACTURING - ATEX/IECx Explosion Proof product design

Produces explosion safe variants of a wide range of products. Our main focus is however on the production of explosion safe tablets, smartphones and air conditioners. We are also able to produce and certify industrial products of your choice. our unique product can be supplied and delivered worldwide to all oil and gas majors, petrochemicals and pharmaceutical companies and other companies that deal with explosion risk.

### Unique ATEX and IECEx capabilities

- ATEX and IECEx approved
- Fast World Wide Delivery
- User-friendly and easy installation
- Latest tehnological developments
- Smartphones, tablets and air conditioners
- Suitable for Zone 1, zone 2, Zone 21 and Zone 22

# OEM Partnership
